

Trupti M. Fataniya

+91 9106377474 | truptifataniya22@gmail.com | <https://github.com/Tupi-22>

Education:

- Bachelor of Engineering (Computer Engineering)
V.V.P Engineering College, Rajkot | 2022 – 2026
CGPA: 7.17/10 (till 5th sem)
- Secondary and Higher Secondary Education
New Era School (10th) and Nirmala Convent School (12th) | 2018 – 2022
10th : 75% | 12th : 51.78

Skills:

- Technical Skills : HTML, CSS, JS, Java, Python, Basic UI/UX designing (Canva)
- Soft skills : Communication, Adaptability, Team work

Hobbies:

- Programming
- Photo editing
- Cooking
- Reading

Projects:

- Amazon Clone :
A basic frontend replica of Amazon's homepage using HTML and CSS, focusing on layout accuracy.
- My e-Book:
An online E-Book Maker platform that allows authors to create, manage, and publish e-books for free.
- Number Guessing Game:
A Java-based console game where users guess a randomly generated number within limited attempts, including a scoring system and replay options.
- Bank Account System:
To design a Bank Account Management System using Python's Object-Oriented Programming concepts like classes, objects, and methods.
The project enables users to create accounts, deposit, withdraw, and check balances with encapsulated account logic.

Positions of Responsibility:

- Python Intern
@ Zennaxx
15-days Internship, Gained hands-on experience in Python programming through real-world tasks and mini-projects.
- Head - Coordinator of Event Management club
@ V.V.P. Engineering College
Led and coordinated the planning, organization, and execution of various college events and activities. Ensured the smooth execution of cultural, academic, and technical events by taking charge of end-to-end event operations, including planning timelines, allocating responsibilities, etc.
